Summary

A versatile computer science student with a commitment to learning and improving. I have a good understanding of the full software development activities. Including carrying out straightforward design, testing or support of network design and solutions following existing methodology set by senior colleagues. Actively looking for a software developer internship with a fast-paced and ambitious company that can offer development training, project based learning and a mentoring programme.

Work Experience

IIE MSA.   *Roodepoort, South Africa*
Academic Tutor   *Jan. 2020 - Nov 2020*
